You are cordially invited to attend

The Landscape Research Group's Annual Lecture

This year it is presented in partnership with the Landscape Institute.
The programme celebrates the publication of *The Routledge Companion to Landscape Studies*.

Landscape and Human Destiny

Speakers:

Prof Peter Howard, Visiting Professor of Cultural Landscape, Bournemouth University

Dr Ian Thompson, Reader in Landscape Architecture, University of Newcastle

Dr Emma Waterton, Institute for Culture and Society, University of Western Sydney

Paul Tabbush, Chair of the Landscape Research Group will moderate the discussion

The presenters are co-editors of the *Routledge Companion to Landscape Studies*

The editors of the *Companion* have produced not so much a snapshot as a panorama of landscape studies, with contributions from twelve countries and disciplines ranging from anthropology to landscape architecture, semiology to archaeology, economics to cultural geography. Within this broad sweep it has been possible to identify significant cross-cutting themes and preoccupations.
